HO NCE
ASSESSMENT

WHAT GREEN PLATOON INVESTIGATES

- **Comfort** Drafts and stubborn hot or cold rooms
- **Energy** High bills and uncertain prior upgrades
- **Building envelope** Air leakage, insulation and thermal weaknesses
- **Indoor conditions** Ventilation, moisture and safety observations

COMPLEMENTS THE HOME INSPECTION

Home inspectors evaluate the condition of components and systems. Green Platoon evaluates how the home performs as a system using diagnostic testing and building-science principles.

WHY PROFESSIONALS PARTNER WITH US

- **Add value.** Offer specialized support before or after closing.
- **Build trust.** Give clients plain-language answers without unnecessary alarm.
- **Reduce guesswork.** Evidence identifies causes instead of treating symptoms.
- **Extend your expertise.** Give clients a trusted building-performance resource when questions go beyond the traditional home inspection.

DIAGNOSE FIRST. RECOMMEND SECOND.

We document findings, explain significance and prioritize next steps. No exaggeration. No fear-based selling.

INSPECT | TEST | DOCUMENT | EXPLAIN | PRIORITIZE

ASSESSMENT SCOPE MAY INCLUDE blower-door testing, thermal imaging, envelope and insulation evaluation, ventilation review, combustion-safety testing, combustible-gas / fuel-gas inspection, and moisture or indoor-condition investigation when applicable.
